I sent Jake an email and cc'd raj so he gets the data when available.

I just symbolized the layer off the year built date. Not really hard as long as we get the data.

Once Raj gets the data he can make a data layer and put it on a map and/or on the viewer. Just let us know.

Will these properties need to go into RM? Will you be doing assessments?

Raj have you started working on the imagery yet?

Can you answer him ASAP? We need to classify the homes similar to what you guys did for Joplin. Bordelon said you tagged homes based on the year of construction. That ring a bell? Can I get Brett to work on the imagery stuff?

Yes. The appraisal district stores that in an "Improvement table" separate from the normal parcel data. Do you want me to send you that attribute table? What format?

Also, ATF has been asking, do you know when the aeriels on the image service you gave me will be cleaned up?

Thank you,  
Jake

Jake,

Do you have an attribute field that lists the date of construction for the structures in those parcels?

Attached is a zip file. Rename to .zip. There are 2 polygon files of the exclusions zones for you to clip the parcels to.

Thanks.

Ok, That sounds great. And, will this be a natural color ortho georeferenced aerial image?

Thank you,  
Jake

Jake,

Eric Delgado (also with EPA) and Janine Latham (START Contractor – GIS) can provide you with the ASPECT Aerial imagery shape file and have requested the parcel data. Per our discussion, they will coordinate with you so that we may help each other out.

Eric/Janine – Jake's phone number is 254.749.0607

Thanks
